## **FACTORS OF INVESTMENT ATTRACTIVENESS**

# **NATURAL RESOURCES**

## Pervomaisk Urban Territorial Community, Mykolaiv Region

- Pervomaisk Urban territorial community is located on the border between the steppe and forest-steppe zones.
- The region's **terrain** – is an undulating plane, dissected by valleys and ravines into separate interfluves plateaus.
- **The climate** is moderately-continental, and based on the amount of precipitation the area belongs to the warm, moderately dry zone.
- **Water resources include** the Southern Bug, Synyukha, and Kodima rivers.
- **Mineral resources:** The geological history indicates that the region lies on the so-called Ukrainian Crystalline Shield formed during the ancient Archean era from the volcanic rocks. These rocks surface the area in some areas as cliffs and rapids, creating picturesque natural landscapes. The proximity of the maternal shield accounts for the presence and extraction of valuable minerals such as granite, clay, quartzite, gneisses.

## Pervomaisk Urban Territorial Community, Mykolaiv Region

In the territory of Pervomaisk district lies one of the most beautiful and remarkable natural parks of Ukraine – the **Buzhkyi Gard National Park**.

The Park has been recognized as one of the **Seven Wonders of Ukraine**.

The park is home to unique plant species, including relicts that are listed in the Red Book of Ukraine.
